

Academic Program Array by Degree/Program

UW-Madison School of Education

Updated May, 2014

Degrees, majors, options, and certificates are academic programs and credentials endorsed by the School of Education and UW-Madison. Each *degree* (e.g., BS, MS, PhD) has at least one associated *major* (sometimes referred to as a *program*). Some majors have an officially recognized *option*, which also appears on the student transcript. *Certificates* may be undergraduate, graduate, or capstone. *Tracks* and *sub-tracks* listed under the graduate degrees/majors are unofficial parts of the School of Education program array, will not appear on student transcripts, and are not recognized by academic governance. *Certification* (Cert) is a credential granted by the School of Education in accordance with the regulations of the Wisconsin Department of Public Instruction. Certification is usually (but not always) associated with either an undergraduate or graduate degree program.
